

THE WILTON BOARDING SCHOOL

FOR BOYS, M. ABEL WHITLOCK, Proprietor, will commence its Winter term at the first November.

The School is situated in the pleasant village of Wilton, Conn., about one mile from New Haven, and two hours' ride from the city by rail-way.

It has been the unceasing effort of the Principals to make the Institution conform to the wants of the pupils, as well as to the convenience of instruction imparted in all the departments.

An enlightened system of government pervades all the departments, which enables Mr. Whitlock to put his terms on such a moderate scale as will not fail to meet the desires of all classes of the community.

The Principal refers to his patrons in New-York City.

Circulars containing the same can be had at No. 76, Chat-ham St., N. Y., where the Principal can be met every Wednesday in October, from 1 to 2 o'clock P. M., or 3 to 4 P. M.

INSTRUCTION.—A gentleman of many

years' experience will instruct in Mathematics or English, in private or seminary school. Particular attention given to Arithmetic, Algebra, Surveying, Engineering, Drawing of Maps, Charts, &c. Bear of reference given.

Address GEOMETRY, Tribune Office.

CHARRAUD'S ROOMS, No. 20 White-

Street—Messrs. CHARRAUD & O'VILLE, proprietors of dancing schools and academies, and the ladies and gentlemen that their DANCING and WALTZING CLASSES will commence on MONDAY, 20th, and WEDNESDAY, 22d Oct., at the above place, of instruction, Monday, at 12 o'clock, noon, 3 afternoons, for Ladies and Children. These places are exclusive for those who desire to take but one lesson per week, and will be convenient for families residing up town, Wednesdays and Saturdays, 12 o'clock, noon, and 3 o'clock, p.m. The lessons are given in the evenings, and are taught in almost every way, and for all sorts of dances, and by all kinds of masters, who have pronounced them inimitable, by using the Syrup and CERATE, which will remove all the impurities or humors that are there to be met by the CERATE, which will cure them as fast as they appear, and this is the only way that humors can be permanently and perfectly cured. The Syrup does not, like many other medicines, do any harm to the body, it removes and entirely changes the blood, and effects life-lasting cures. Those who have been treated with it, instead of going to the skin, as they should do, are thrown to some internal organ, often to the Lungs, causing cough, and consumption, and other diseases, obstructions and irregularities, which leave them miserable for life, and not infrequently terminate fatally.

MORE THAN 100,000 CASES OF HDMEDICINE.

For further information, bear of reference given.

Persons who have used it for these diseases, especially in the German and French Schools, will be pleased to read Ad-dress THETA, Tribune Office.
